ADAMS COUNTY	Adams Co. Lake Maps	Adams	WC	Buzz Sorge, 715-839-3794	\$6,971.25	\$2,323.75	Adams County proposes to contract with the U.W. Eau Claire Geography Dept. for the production of bathymetric maps on Arkdale, Arrowhead, Fawn and Peppermill Lakes. Major project elements to include: 1) Depth readings via sonar and GPS (donated), 2) Computer analysis of data and generation of four color maps, 3) printing and distribution of maps.
BALSAM LAKE P & R DISTRICT	Balsam Lake Long Range Plan Public Involvement	Polk	NO	Pamela Toshner, 715-635-4073	\$3,000.00	\$1,000.00	<p>Balsam Lake Protection & Rehabilitation District is sponsoring a project in the district area to print and distribute a draft long range plan and to survey and gather public input. The plan synthesizes historic studies, physical information, and work accomplished to date as well as setting future goals and action plans. The final plan will be completed and presented based on draft and survey comments and feedback.</p> <p>Specifically the deliverables associated with this project include: 1. Summary of survey results/response. 2. Long Range Plan report</p> <p>Draft public surveys must be reviewed and approved by the Department before being initiated. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator.</p>

BARRON COUNTY	Barron County Aquatic Invasive Species Project	Barron	NO	Pamela Toshner, 715- 635-4073	\$8,315.00	\$8,315.00	<p>Barron Co. Soil & Water Conservation Dept. in partnership with several lake associations and districts is sponsoring a one-year countywide AIS project and summer internship to do the following activities: Eurasian watermilfoil and purple loosestrife monitoring and management; other AIS (e.g. zebra mussel, rusty crayfish, and curly-leaf pondweed) monitoring; and a Clean Boats Clean Water watercraft inspection program.</p> <p>If a new AIS infestation is found, the Intern and County will work with the respective lake group to develop a rapid response plan and/or an AIS plan that meets the requirements of NR 198.43.</p> <p>Project deliverables include:</p> <ol style="list-style-type: none"> 1. A project report/assessment of education and outreach activities, monitoring activities, and data collected including a description of the extent of AIS in Barron Co., detail on control measures, and a strategy for future management, as well as the information in 2-6. 2. Maps of purple loosestrife and Eurasian watermilfoil locations and densities. 3. Prioritized list of boat landings for watercraft inspection and explanation of how priorities were developed. 4. Clean Boats Clean Waters data collection summary. Data collected must include those data required as part of the CBCW program and must be entered in the statewide database. 5. Purple loosestrife project summary. 6. Examples of educational/outreach materials developed. <p>Special Conditions</p> <ol style="list-style-type: none"> 1. Any new identification of an aquatic invasive species must be immediately reported to the Department. 2. The Eurasian watermilfoil monitoring will be presence/absence monitoring. The Department may provide standardized methods for AIS monitoring. 3. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator. <p>A draft report/deliverables will be submitted to the regional Lake Coordinator for review before finalization.</p>

BAYFIELD COUNTY	Bayfield Co. Aquatic Invasive Species Education, Prevention & Planning	Bayfield	NO	Pamela Toshner, 715- 635-4073	\$75,000.00	\$75,000.00	<p>Bayfield County in cooperation with the ABDI Land Conservation Dept. is sponsoring a two-year countywide AIS project and position to do the following activities: create a network to support and streamline AIS prevention and control efforts; document AIS locations; provide AIS information and education outreach; obtain and manage funding to support evolving water quality issues. The final product of this project includes a countywide strategic plan that integrates the goals, objectives, and activities of interested parties into a manageable approach to deal with AIS.</p> <p>If a new AIS infestation is found, the AIS Coordinator and County may work with the respective lake group to develop a rapid response plan and/or an AIS plan that meets the requirements of NR 198.43.</p> <p>Project deliverables include:</p> <ol style="list-style-type: none"> 1. A strategic plan to monitor and prevent new AIS infestations and prevent the spread of existing infestations. The plan will list planning participants, comments/input received, meetings and attendance, and a description for how success will be measured (i.e. measurable goals). 2. A project report/assessment of education/outreach activities (including participation in the Cooperative Weed Management Area), monitoring activities, data collected and examples of materials developed. The report will include a description of the extent of AIS in Bayfield County, as well as the information in 2-9. 3. GIS maps of current AIS infestations. 4. Boat landing and signage inventory. 5. Clean Boats Clean Waters, AIS Citizen Lake Monitoring, Adopt-a-Landing, and Shoreline Watch Aquatic Team trainings summaries that include number of participants. 6. County-wide network/resource list, lake contacts, monitors, volunteers, etc. 7. Summary and examples of press releases, newsletter articles, and other media contacts. <p>A draft report/deliverables should be submitted to the regional Lake Coordinator for review before finalization.</p>

BAYFIELD COUNTY	Management of Eurasian Water Milfoil - Twin Bear Lake, Bayfield Co.	Bayfield	NO	David Blumer, 715-635-4078	\$10,000.00	\$10,240.00	<p>Bayfield County will sponsor a project for the treatment of Eurasian water milfoil (EWM) in Twin Bear Lake within the Pike Chain of Lakes. This project is a cooperative project including the Iron River Lake Association, local municipalities and private citizens. The project includes both pre and post plant surveys of the entire Pike Chain, chemical treatment of EWM, manual removal of EWM through the use of certified scuba divers, start up of a volunteer monitoring program to watch for EWM, and education awareness efforts through the use of media coverage, public meetings, letters and personal contacts with property owners.</p> <p>EWM will be chemically treated in accordance with the Department issued Aquatic Plant Management permit.</p> <p>A final report will be submitted to the Department of Natural Resources in both paper and electronic form. The report shall include a summary of the chemical and manual treatment results, information from the pre and post lake surveys and samples of all education materials used for the project.</p>

BEAR LAKE ASSOCIATION OF BARRON	Bear Lake Comprehensive Management Plan	Barron	NO	Dan Ryan, 715-635-4073	\$9,616.93	\$3,205.64	<p>The Bear Lake Association of Barron Co., Inc. will conduct a comprehensive lake management planning project involving a study and evaluation of Bear Lake in Barron and Washburn Counties. Project activities include; monitoring watershed stream runoff quality, conducting a shoreland survey, conducting an in-lake water quality monitoring survey, conducting an aquatic plant survey, conducting a watershed analysis and calculating nutrient loading budgets, developing a model for calculating lake response to phosphorus loadings, conducting an information and education program, and the development of a comprehensive lake management plan.</p> <p>Specific deliverables for this grant project include: 1) A final technical comprehensive lake management plan and report covering all project activities and recommendations. 2) A final non-technical summary report in a newsletter form that can be widely distributed to lake users and lake residents.</p> <p>Special conditions for this grant project include: 1. The macrophyte survey must be conducted to specifications provided by the Dept. of Natural Resources. Mr. Frank Koshere from our Superior Office should be contacted and will provide the current standard specifications. 2. The macrophyte survey report shall incorporate any "sensitive area designations" that may be available for Bear Lake. Mr. Jim Cahow from the Barron Office should be contacted for this information.</p> <p>The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newsletter(s), public meeting(s), and local newspaper articles.</p>

BEAVER DAM LAKE MANAGEMENT DISTRICT	Aquatic Plant Management Plan for Beaver Dam Lake	Barron	NO	Dan Ryan, 715-635-4073	\$10,000.00	\$3,334.00	<p>The Beaver Dam Lake Management District will conduct a comprehensive three phase project to document current aquatic plant conditions in the lake and produce an aquatic plant management plan. The exotic invasive plant species Eurasian Water Milfoil was documented in Beaver Dam Lake during the 1990's and this project is a part of an ongoing aquatic plant management planning process being conducted by the Lake District on Beaver Dam Lake. The first two phases of this current project involved aquatic plant surveys on the West (#1) and East (#2) portions of the lake.</p> <p>Activities for this third phase grant project involve the analysis and evaluation of data and information from the two plant surveys and the development of an Aquatic Plant Management Plan.</p> <p>Specific deliverables for this third phase grant project include: * A comprehensive Aquatic Plant Management Plan final report including a summary of all project activities and results.</p> <p>The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newsletter(s), public meeting(s), and local newspaper articles.</p>
BIG ROCHE-A-CRI LAKE DISTRICT	Big Roche-A-Cri Drawdown	Adams	WC	Buzz Sorge, 715-839-3794	\$2,691.06	\$2,691.06	<p>The Big Roche-A-Cri Lake Protection and Rehabilitation District proposes to use a winter drawdown of the lake to freeze out and remove Eurasian Watermilfoil from shallow portions of this Adams County lake. Major project elements to include: 1) Reimbursement of lost Hydroelectric generation revenues, 2) Volunteer labor to remove weeds, 3) DNR permit fees, 4) printing and mailing costs.</p>
BIG ROCHE-A-CRI LAKE DISTRICT	Roche-A-Cri Invasive Species Signs	Adams	WC	Buzz Sorge, 715-839-3794	\$2,650.00	\$2,650.00	<p>The Big Roche-A-Cri Lake Protection and Rehabilitation District proposes to install signs promoting safeguards against the spread of aquatic invasive species at the two public boat launches on Big Roche-A-Cri Lake in Adams County. Major project elements to include: 1) sign construction and installation, 2) articles in newsletter and on web site, 3) presentation at annual meeting, 4) survey of District membership, 5) final report.</p>

BIG WOOD LAKE ASSOCIATION, INC.	Big Wood Lake AIS Program	Burnett	NO	David Blumer, 715-635-4078	\$2,130.50	\$2,130.50	<p>The Big Wood Lake Association is sponsoring an aquatic invasive species (AIS) project on Big Wood Lake which includes watercraft inspection at two public access points, in-lake monitoring, and an I & E program aimed at lake residents and users.</p> <p>Approximately 200 hours of volunteer watercraft inspection time at two landings in accordance with WI-DNR and UW-Ext. Lakes "Clean Boats, Clean Waters" guidelines will be completed. Bi-monthly in-lake monitoring for AIS will be provided by a paid consultant at the two access points and additional sites around the lake. Informational and educational materials will be provided to lake residents and users via several methods including at watercraft inspection sites, individual mailings, the "Wood Chips" newsletter, and the Big Wood Lake website.</p> <p>Special Conditions for this project: 1. Project sponsor will immediately report any new AIS infestation to the appropriate DNR representative. 2. Follow all CBCW protocols including timely submission of all watercraft inspection data to the CBCW database. 3. Documentation of paid consultants work and results related to the project. 4. DNR to receive both paper and electronic (.pdf) copies of final report which includes documentation of all in-kind/volunteer contributions.</p>

BOHNERS LAKE SANITARY DISTRICT	Sediment Movement Study	Racine	SE	Heidi Bunk, 262-574-2130	\$7,620.00	\$2,540.00	Eight sets of samples will be taken at the Bohners Lake inlet. Samples will be analyzed for total mass weight, particle size analysis and percent organic matter. A stream flow measurement will be taken on each of the eight sampling dates. The samples will be taken with a Helley Smith Sampler. Three sets of samples will be taken under baseflow conditions and five will be taken during storm events. The project deliverable will be a report containing 1) all of the data collected (flow, total mass weight, particle size analysis and percent organic matter) for each of the eight sampling dates and 2) calculations and discussion of the total mass of material moving down the stream on an annual basis. Two paper copies and one electronic copy of the report will be provided to the DNR before the project can be closed out.
BONE LAKE MANAGEMENT DISTRICT	Bone Lake AIS Prevention Project	Polk	NO	Pamela Toshner, 715- 635-4073	\$14,372.00	\$14,372.00	<p>The Bone Lake Protection and Rehabilitation District will conduct an AIS Prevention and Education Program on Bone Lake. This project includes five main components of a comprehensive AIS program; 1. Education to lake users, 2. Clean Boats, Clean Waters watercraft inspection and boater education program, 3. Lake monitoring, 4. Contingency plan per NR 198.43 if a new invasive species is found, and 5. Funding. Specific project activities include: 600 AIS information mailings; approximately 200 CBCW volunteer hours; approximately 240 self-help AIS monitoring volunteer hours; installation of 5 AIS signs; and annual technical reports and APM Plan updates.</p> <p>Upon completion of this project, the sponsor will provide the State with:</p> <ul style="list-style-type: none"> * a comprehensive report listing the findings of the aquatic plant inspections and a summary of all project activities, * data and information, including maps and digital images, acquired as part of the project shall be reported to the Department in the format specified by the regional Lake Coordinator. <p>Special conditions for this project:</p> <ul style="list-style-type: none"> * Draft public surveys must be reviewed and approved by the Department before being initiated. * The aquatic plant "inspections" and monitoring activity should be conducted utilizing methodology approved by the Department. * The project sponsor shall immediately contact the proper DNR authorities in the event of the discovery of a new Aquatic Invasive Species infestation. * All information collected during the watercraft inspection and boater education portion of the project will be entered into the Clean Boats Clean Waters database by the sponsor and reported as such in the final report.

CITY OF EAU CLAIRE	Half-Moon Map-Core	Eau Claire	WC	Buzz Sorge, 715-839-3794	\$10,000.00	\$19,580.00	The City of Eau Claire proposes to contract with the UW-Eau Claire departments of Geography and Anthropology to produce a bathymetric survey map, shoreline erosion map, and a map showing the variations organic sediment thickness on Half-Moon Lake in Eau Claire County. Major project elements to include: 1) analysis of existing bathymetric survey data, 2) production of 10,000 copies of lake survey map, 3) survey, classification and mapping of lakeshore erosion, 4) Ground Penetrating Radar and Vibracore surveys of sediment thickness, 5) development of sediment thickness map.
CITY OF MANAWA	Manawa Millpond Lake Planning Study Ph 1	Waupaca	NE	Mark Sesing, 920-485-3023	\$10,000.00	\$4,242.56	<p>the project is a basic appraisal of Aquatic plants, water quality and watershed. In addition to the appraisal an APM plan will be developed with community participation. The plant survey is a point intercept survey following DNR standards for data collection and reporting. Water quality parameters (trophic condition) will be collected on 5 events and past data reviewed and analyzed. The watershed evaluation will determine land uses, sensitive areas, potential sources of sediment and nutrients as well as modeling of loads to the lake.</p> <p>Deliverables:</p> <ol style="list-style-type: none"> 1. Aquatic plant survey report 2. Aquatic Plant management plan 3. Watershed analysis report 4. Water Quality condition report <p>This scope is intended to summarize the detailed scope provided in the grant application and does not supersede grant application specifics.</p>
CITY OF MIDDLETON	Lakeview Park Stormwater Treatment	Dane	SC	Susan Graham, 608-275-3329	\$10,000.00	\$3,720.00	Project will study the channel leading to an outlet on the lake where sediment is accumulating, the outfall and inventory the system. This will help evaluate and make recommendations for stormwater treatment alternatives to reduce pollutant loading to the lake.
CITY OF MONONA	Belle Isle Channel Restoration	Dane	SC	Susan Graham, 608-275-3329	\$10,000.00	\$3,638.50	Study will evaluate feasibility of restoring two lagoons around Belle Isle, which suffer from sedimentation/shallow water, exotic plants (EWM) and poor water quality. The goal is a plan to improve navigation, water quality, aesthetics and fish and wildlife habitat. Will identify the source of nutrients and sediments, applicable BMP's and lake practices to reduce erosion and sedimentation. Public education will take place in the process of developing a sediment and nutrient management strategy.

CROOKED LAKES AREA LAKES PRTCTN & REHAB DIST	Crooked Lake APM Plan Project	Oconto	NE	Richard Sachs, 920-662-5187	\$5,157.00	\$5,157.00	<p>The Crooked Lake Protection and Rehabilitation District proposes to develop an Aquatic Plant Management (APM) Plan in 2006, which will focus on native plant protection and prevention, and control of aquatic invasive species (AIS). The project elements and deliverables are specified in the Crooked Lake Protection and Rehabilitation District Aquatic Invasive Species Control Grant application, dated January 16, 2006. The project includes conducting aquatic plant surveys on Crooked, Bass and Gilkey Lakes; determining the extent, distribution and density of AIS, including curly-leaf pondweed, Eurasian water-milfoil and purple loosestrife; developing an herbarium of pressed plants for use by Crooked Lake Protection and Rehabilitation District members; preparing and developing an APM Plan consistent with DNR guidelines, including an AIS prevention and control plan; creating geographic information system produced maps of the plant community; educating the lake users of native plant protection and AIS prevention and control measures; and implementing the "Clean Boats, Clean Waters" watercraft inspection program. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. The final report will include the Crooked Lake Protection and Rehabilitation District Aquatic Plant Management Plan that conforms to DNR's Aquatic Plant Management Guidance.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>
DANE COUNTY	Dev. of Mgmt. Plan for Monona Bay	Dane	SC	Susan Graham, 608- 275-3329	\$10,000.00	\$34,000.00	<p>Monona Bay will be the focus of a UW Water Resources Management Graduate Program workshop. The students will compile information about the bay, including watershed, historic and present water quality data, aquatic plant data, determine water sources and flushing rate, recommend management options for aquatic plants and shoreline habitat, and design a public outreach program.</p> <p>After the final report is complete and the grant is finished, it will be used to develop a Comprehensive Watershed Plan for Monona Bay to prioritize and guide decision-making for future management of the Bay.</p> <p>Deliverables: See the grant application. DNR Lakes staff will have input to a draft report prior to publication of the final. An electronic copy of the final report in .pdf file format and all raw data in will be submitted along with one hard copy.</p>

LONG LAKE PROPERTY OWNERS ASSOCIATION	Long Lake AIS Rapid Response Project	Shawano	NE	Richard Sachs, 920-662-5187	\$7,088.20	\$7,088.20	<p>The Long Lake Property Owners Association proposes to manage Eurasian water-milfoil (EWM) in Long Lake by implementing control and prevention measures during the period 2006 - 2007. The project elements and deliverables are specified in the Long Lake Property Owners Association Aquatic Invasive Species Control Grant application, dated February 1, 2006. The project includes conducting pre- and post-treatment surveys and mapping the extent of EWM; controlling EWM with aquatic herbicide treatments and through hand-pulling; training volunteers to conduct post-treatment assessments and conducting those assessments to determine treatment efficacy; training volunteers to monitor for aquatic invasive species (AIS) and conducting those surveys; educating volunteers about AIS prevention measures through the "Clean Boats, Clean Waters" program; and educating residents about AIS prevention measures through newsletters, mailings and/or meetings. Annual progress reports and a final report summarizing the two-year project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>
LUMBERJACK RC&D COUNCIL	Oconto & Marinette Counties Motor Tour Guide of Shoreland Restoration Projects Development	Oneida	NE	Mark Sasing, 920-485-3023	\$3,000.00	\$14,200.00	<p>this project is a two-phase development and distribution of a citizen's guide to shoreline restoration in Marinette and Oconto Counties. The small-scale grant funds will be used for Phase 1 only. Phase 1 will involve restored shoreline site selection, information gathering, and map creation. This information will be assembled into a draft layout for the guide. Phase 2, a phase funded via other grants will complete the project and distribute the guide.</p> <p>Deliverables: 1. Draft Guide</p> <p>This scope is a summary and does not supersede the detailed proj description in the grant application.</p>

MT. MORRIS LAKES MANAGEMENT DISTRICT	Mt. Morris Lk AIS Control & Prevention Project	Waushara	NE	Richard Sachs, 920-662-5187	\$72,426.25	\$72,426.25	<p>The Mount Morris Lake Management District proposes to control curly-leaf pondweed (CLP) and Eurasian water-milfoil (EWM) through chemical treatment, mechanical and hand removal, and preventative measures in Mount Morris Lake during the period 2006 - 2011. The project elements and deliverables are specified in Mount Morris Lake Management District's Aquatic Invasive Species Grant application, dated January 22, 2006. The project includes monitoring the extent and density of CLP and EWM annually through pre-treatment and post-treatment surveys of known infested areas, and monitoring other lake areas for the presence of aquatic invasive species (AIS); treating CLP infested areas with an aquatic herbicide; conducting hand-removal of CLP and EWM by divers; mechanically harvesting CLP; conducting water quality monitoring; conducting an aquatic plant survey using the point-intercept method and updating the Mount Morris Lake Aquatic Plant Management Plan; and conducting volunteer activities to prevent further AIS infestations, including conducting watercraft inspections. Reimbursement for mechanical harvesting is limited to only CLP infested areas for the purpose of minimizing turion production; harvesting for purposes of nuisance relief or navigation lanes will not be reimbursed. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Annual progress reports and a final report summarizing the five-year project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

SAND LAKE MANAGEMENT DISTRICT	Sand Lake Eurasian Water Milfoil Treatment	Barron	NO	David Blumer, 715-635-4078	\$31,249.00	\$31,249.00	<p>The Sand Lake Management District is sponsoring a three year aquatic invasive species (AIS) project for Sand Lake to control or eradicate Eurasian Water Milfoil (EWM) including an early season, large-scale herbicide treatment of established beds of EWM in 2006, and post-treatment monitoring through 12/31/2008 to determine the initial treatment effectiveness and its impact on target and non-target species. Included with the post monitoring is the potential for re-treatment or spot treatment of missed or reemerging EWM. Efforts at preventing new AIS infestations into Sand Lake will be addressed with an education program for lake residents via the district newsletter. Bouy markers will be placed in the lake to delineate the current boundaries of existing beds of EWM for both herbicide application and lake users.</p> <p>Chemical treatment will be conducted in accordance with guidelines provided in a DNR approved Aquatic Plant Management (APM) Plan. All appropriate DNR APM protocols will be followed. Post monitoring will be completed by a professional entity with the support of Sand Lake Management District volunteers. Re-treatment, spot treatment, or other treatments will be completed as necessary provided impact on non-target species is minimal and they are approved in the APM Plan.</p> <p>Special conditions for this project: 1. The grant sponsor must include a DNR approved watercraft inspection program at the public access site on Sand Lake beginning in early summer 2006 and lasting through the projects completion in 2008. 2. The sponsor shall immediately report any new AIS infestation to an appropriate DNR representative.</p> <p>Project Deliverables: Treatment and follow-up results will be provided to the DNR Lake Coordinator and DNr APM Coordinator for review and comments. A Final report including copies of newsletter(s), results of the watercraft inspection program and treatment summaries shall be proved in paper and electronic (.pdf) form.</p>

SAWYER COUNTY	Sawyer County AIS Coordinator	Sawyer	NO	Pamela Toshner, 715-635-4073	\$17,460.50	\$17,460.50	<p>Sawyer Co. with Sawyer Co. Lakes Forum, LCO Conservation Dept., and LCO Extension is sponsoring a countywide AIS project and position. Activities include: education/outreach at public events and lake meetings; baseline monitoring and mapping of Eurasian watermilfoil (EWM), purple loosestrife, flowering rush and curly-leaf pondweed; implementing Clean Boats Clean Waters (CBCW) watercraft inspection program; developing prevention and AIS plans, including grant assistance; providing technical support for rapid response projects.</p> <p>If a new AIS infestation is found, the Coordinator, County and respective lake group will develop a rapid response plan and/or an AIS plan.</p> <p>Deliverables include:</p> <ol style="list-style-type: none"> 1. Report/assessment of education/outreach activities, monitoring activities, and data collected; including a description of the extent of AIS in the county, detail on control measures, prevention and AIS plans, and the information in 2-9, examples of materials developed. 2. Baseline data (species, GPS locations, estimated infestation size) and GIS maps of current EWM, purple loosestrife, flowering rush and curly-leaf pondweed locations, and additional AIS infestations documented during the project. 3. Prioritized list of boat landings for watercraft inspection and explanation of how priorities were developed. 4. CBCW data collection summary required as part of the CBCW program. Data must be entered in the statewide database to be eligible for grant reimbursement. 5. County-wide resource list, including lake contacts, monitors, volunteers, etc. 6. Individual waterbody prevention plans and established infestation management plans. 7. Powerpoint education program on AIS identification, prevention, and control specific to Sawyer Co. <p>A draft report/deliverables must be submitted to the regional Lake Coordinator for review before finalization.</p>
SCHOOL SECTION LAKE MANAGEMENT DISTRICT	Depth Contour Mapping	Waukesha	SE	Heidi Bunk, 262-574-2130	\$1,875.00	\$625.00	<p>The School Section Lake Management District will hire a consultant to digitally map the lake bed of School Section Lake. The project deliverable will be two copies of the completed map, submitted to the Department. The maps must be submitted to the Department before final payment can be made.</p>

SPOONER LAKE DISTRICT	Lake Planning Project - Phase 3	Washburn	NO	Dan Ryan, 715-635-4073	\$6,750.00	\$2,250.00	<p>The Spooner Lake District will continue a comprehensive lake management planning project involving a study and evaluation of Spooner Lake in Washburn County. Project activities for this Phase 3 project include; conduct informational and progress meetings during the project, review all existing lake and watershed data, conduct a macrophyte survey on Spooner Lake, prepare an Aquatic Plant Management Planning Document, and conduct a quality control program throughout the project.</p> <p>Specific deliverables for this grant project include: A Final Project Summary Report including the project results and an Aquatic Plant Management Document.</p> <p>Special conditions for this grant project include: 1. The macrophyte survey must be conducted to specifications provided by the Dept. of Natural Resources. Mr. Frank Koshere from our Superior Office should be contacted and will provide the current standard specifications. 2. The macrophyte survey report shall incorporate any "sensitive area designations" that may be available for Spooner Lake. Mr. Larry Damman from the Spooner Office should be contacted for this information.</p> <p>The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newsletter(s), public meeting(s), and local newspaper articles.</p>
SPOONER LAKE DISTRICT	Lake Planning Project - Phase 4	Washburn	NO	Dan Ryan, 715-635-4073	\$9,999.75	\$3,333.25	<p>The Spooner Lake District will continue a comprehensive lake management planning project involving a study and evaluation of Spooner Lake in Washburn County. Project activities for this Phase 4 project include; conduct informational and progress meetings during the project, review existing lake and watershed ordinances and recommend new or revised ordinances as appropriate, conduct a comprehensive computer model analysis of the Spooner Lake and watershed water quality and quantity, develop a Lake/Watershed Management Master Plan (LWMMP), present and interpret the LWMMP to the Lake District, and conduct a quality control program throughout the project.</p> <p>Specific deliverables for this grant project include: A Final Project Summary Report including the project results and a copy of the final Lake/Watershed Management Master Plan (LWMMP) Document.</p> <p>The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newsletter(s), public meeting(s), and local newspaper articles.</p>

TOWN OF TOWNSEND	Townsend Flowage APM Plan Development	Oconto	NE	Richard Sachs, 920-662-5187	\$7,383.96	\$7,383.95	<p>The Town of Townsend, on behalf of the Townsend Flowage Association, proposes to develop an Aquatic Plant Management (APM) Plan in 2006, which will focus on native plant management and development of contingency plans for aquatic invasive species (AIS) management, and conduct activities to prevent the introduction of AIS. The project elements and deliverables are specified in the Town of Townsend's Aquatic Invasive Species Control Grant application, dated January 24, 2006. The project includes conducting point-intercept aquatic plant surveys on Townsend Flowage and McCaslin Brook, following DNR protocols; mapping the distribution and acreage of nuisance aquatic plants; conducting a water quality assessment, including water quality monitoring and determining the Trophic State Index; conducting a watershed assessment, including determining land uses and cover types within the watershed, and identifying potential nutrient and pollutant sources within the watershed; preparing and developing an APM Plan consistent with DNR guidelines, including an AIS prevention and contingency control plan; educating lake users of native plant value, nutrient management, habitat protection, and AIS prevention and control measures; and implementing the "Clean Boats, Clean Waters" watercraft inspection program. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. The final report will include the Townsend Flowage Aquatic Plant Management Plan that conforms to DNR's Aquatic Plant Management Guidance.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

VILLAGE OF GRANTSBURG	Memory Lake Management Plan	Burnett	NO	Pamela Toshner, 715- 635-4073	\$10,000.00	\$4,988.80	<p>The Village of Grantsburg is sponsoring a project to develop a holistic management plan for Memory Lake and the Wood River.</p> <p>The specific elements of the plan include:</p> <ol style="list-style-type: none"> 1. Summary of historic information. 2. List of regulations/ordinances that affect Memory Lake. 3. Location and delineations of wild rice stands. Qualitative comparison of current aquatic plant species presence/absence and relative abundance to that of historic survey. 4. Comparison of fish communities above and below the Memory Lake dam. 5. Shoreline/watershed survey, including identification of ecologically sensitive areas and erosion areas with mapped and prioritized protection/restoration sites. 6. Wood River bedload and Memory Lake sediment core analysis, including location, type, and depth, and sedimentation rate and sources. 7. Definition/quantification of Memory Lake hydrology and hydraulics, including watershed delineations of Wood River, storm sewers, and overland flow. 8. Sedimentation modeling with suite of flows and loads under various dam operation regimes and restoration to channel flow. 9. Community survey and scoping/planning sessions. 10. Exploration of management alternatives and feasibility of each. Alternatives may include water level manipulation, dredging, non-point source control, and/or natural channel restoration. <p>Special Conditions:</p> <ol style="list-style-type: none"> 1. Draft public surveys must be reviewed and approved by the Department before being initiated. 2. Data, records, and reports, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional Lake Coordinator. <p>A draft report/deliverables should be submitted to the regional Lake Coordinator for review before finalization.</p>

WASHBURN COUNTY	Washburn County AIS Infestation Control Project, Purple Loosestrife	Washburn	NO	Pamela Toshner, 715- 635-4073	\$9,445.63	\$9,445.62	<p>Washburn County Land & Water Conservation will begin the first of a three-year Aquatic Invasive Species Coordinator position. The initial focus of the project will be on purple loosestrife. The project includes five objectives: 1) AIS education; 2) countywide inventory of existing purple loosestrife infestations; 3) GIS map with data points and details of infestation sites; 4) coordination and construction of multiple beetle rearing stations; and 5) purple loosestrife control strategy development. The final goal of the project is to create a limited-term AIS Coordinator position within the LWCD department that is proposed to be funded by future AIS grants.</p> <p>Upon completion of this project, the sponsor will provide the DNR with a report including the following:</p> <ul style="list-style-type: none"> * Summary of AIS education presentations, locations, and audiences. * Summary, including location identification, of beetle rearing stations and releases. * Countywide GIS layer identifying purple loosestrife infestations (GIS-related files are to be submitted to the Department as a deliverable). * Digital aerial imagery collected from pilot surveys. * Purple loosestrife (AIS) tracking sheet that describes sites locations, details, and control progress. * Lake-by-lake inventory of all public landings with inventory of signage. * Detailed and specific management strategy for controlling existing purple loosestrife infestations (year one) and a preliminary plan to prevent the spread of all aquatic AIS. <p>The report will be provided to the Department in both paper and pdf versions . All data and electronic files, including GIS information and digital images, developed as a part of this project should be submitted in electronic, useable files.</p> <p>Special conditions for this project: The project sponsor shall immediately contact proper DNR authorities in the event of a new aquatic invasive species infestation.</p>

WASHINGTON LAKE DISTRICT	Washington Lake Long Term EWM Control Project	Shawano	NE	Richard Sachs, 920-662-5187	\$36,083.00	\$36,083.00	<p>The Washington Lake District proposes to implement elements from its 2005 Aquatic Plant Management Plan to control Eurasian water-milfoil (EWM) and other invasive aquatic plants during the period 2006 - 2008. The project elements and deliverables are specified in the Washington Lake District's Aquatic Invasive Species Control Grant application, dated July 17, 2005. The project includes conducting annual aquatic plant surveys and mapping the extent of EWM, hybridized EWM and curly-leaf pondweed (CLP); controlling EWM and CLP infested areas with aquatic herbicide treatments and/or through hand-pulling; conducting bio-control of purple loosestrife with Galerucella beetles; planting native pondweed and rush species in treated areas; and conducting volunteer activities to prevent further aquatic invasive species (AIS) infestations, including distributing educational materials to lake users, conducting watercraft inspections, posting/maintaining informational signs at public access points, monitoring for zebra mussels and publishing educational announcements directed at preventing the spread of AIS in a local newspaper. Annual progress reports and a final report summarizing the three-year project will be provided to DNR. The final report will include an update to the Washington Lake Aquatic Plant Management Plan.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

WHITEFISH LAKE CONSERVATION ORGANIZATION, IN	Whitefish Lake AIS Program	Douglas	NO	Pamela Toshner, 715- 635-4073	\$5,501.25	\$5,501.25	<p>The Whitefish Lake Conservation Organization proposes to continue a Clean Boat Clean Waters (CBCW) watercraft inspection program and increase Aquatic Invasive Species (AIS) education and outreach in the local area in 2006. The following activities/deliverables will be included in this project:</p> <p>1) CBCW program with youth inspectors (approx. 500 hours) who will collect CBCW data in addition to recreational survey information to be used in the comprehensive lake management plan. The CBCW data will be entered into the statewide database. Recreational survey data will be compiled and used to recommend waterbody regulations to the Town of Wascott.</p> <p>2) "Adopt-a-shore" program wherein riparians will be trained to identify AIS and inspect their shorelines monthly. Inspection data will be summarized and Adopt-a-shores identified on a lakemap.</p> <p>3) Two boat landing kiosks will be constructed. Kiosks will include AIS information for recreation enthusiasts on Bond and Whitefish Lake.</p> <p>4) Digital images will be collected the showcase the above items in addition to the annual Swim & Paddle-a-thon.</p> <p>5) Any AIS related materials generated or paid for by this grant will be submitted as deliverables.</p> <p>If an AIS is identified, Frank Koshere (715-392-0807) or Pamela Toshner (715-635-4073) should be contacted.</p>

WINNEBAGO COUNTY	Winnebago Pool Lks Education, Prevention & Planning Project	Winnebago	NE	Richard Sachs, 920-662-5187	\$75,000.00	\$81,484.00	<p>Winnebago County proposes to develop a comprehensive plan for preventing the spread of aquatic invasive species (AIS) into and from the Winnebago Pool (Lakes Winnebago, Butte des Morts, Winneconne and Poygan) during the period 2006 - 2007. The project elements and deliverables are specified in Winnebago County's Aquatic Invasive Species Grant application, dated January 26, 2006. The project includes initiating the first phase of a two-phase strategic planning process to produce a Strategic Plan for AIS prevention in the Winnebago Pool Lakes; implementing the "Clean Boats, Clean Waters" and citizen-based monitoring programs, including hiring 4 watercraft inspectors and training volunteers to conduct watercraft inspection and AIS monitoring; conducting scientific analyses of current AIS infestations and a risk assessment for potential invasive species; and conducting outreach activities, including collaborating with the Teacher Summer Institutes at UW-Oshkosh, and creating a poster and PowerPoint presentation on AIS in the Winnebago Pool. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Annual progress reports and a final report summarizing the five-year project will be provided to DNR.</p> <p>If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

WISCONSIN ASSOCIATION OF LAKES, INC.	Lakes Convention Keynote Address	Dane	SC	Susan Graham, 608- 275-3329	\$3,000.00	\$2,740.00	<p>This grant will provide funding to host a keynote speaker for the 2006 Wisconsin Lakes Convention. The theme of the convention this year is increasing civic engagement, and the speaker chosen represents that topic. Inspiring keynote speakers not only provide a unifying element to support the theme, but it attracts people to increase attendance, which promotes effective participation in public policy and lake management by more knowledgeable and caring people.</p>
